

Secure Solutions Insurance and Investments

One-stop shop for insurance and investments

“We don’t believe in selling products; we believe in helping clients find the best solution for every situation with the right insurance and investments,” says David Ferguson, owner of Secure Solutions Insurance and Investments.

Secure Solutions takes a personalized approach, getting to know each client’s needs, business priorities, and family goals to build tailored solutions that align with their budget. With brick-and-mortar locations in Kentucky and Florida and independent offices in more than 40 states, the firm delivers both local service and national reach.

“We offer more than just insurance, we provide investment services, business insurance options, and health solutions,” David explains.

As an independent one-stop shop, Secure Solutions offers competitive pricing and access to major carriers while maintaining a high-touch, client-first experience. Services include vehicle, property, business, and health and life insurance, along with investment options such as fixed, indexed, and immediate annuities.

“When you work with us, you’re working with a team that genuinely cares about your best interests. We believe we rise by lifting others.”

Clients often arrive feeling overwhelmed but leave with clarity and confidence. The team simplifies complex decisions, making the process straightforward and manageable. Beyond serving individuals nationwide, Secure Solutions recruits and trains agents across the country and continues to grow through strategic acquisitions.

“We know what to do and when to do it to help clients maximize their Medicare benefits and strengthen investment outcomes. Our approach ensures carriers compete for our clients’ business, not the other way around.”

By streamlining the entire senior insurance planning process, the team can quickly identify all available programs based on a client’s location. Their experienced support staff is well-versed in Medicaid process, guiding clients through every step.
